EXPERIENCE & PROJECTS

ReeF (Acquired) May 2022 - Present
Backend Developer, Co-Founder Remote, India

- This is the first big project I worked on.
- Designed and developed a RPG Discord bot with features like collection , duel system , and custom commands.
- Integrated APIs, webhooks, and used Discord.js for real-time interaction with over 1K+ users
- Deployed the bot using Node.js and hosted it for 24/7 uptime.

Diva Music Jan 2025 - Present
Fullstack Developer Remote, United States

- Built a comprehensive web music player from scratch with Discord.js backend integration
- Implemented WebSocket connections for real-time communication across 9k+ servers
- Developed Next.js dashboard for seamless music management and user interface controls

EternaVaultX (Building) Jan 2025 - Present
Fullstack Developer, Founder Remote, India

- Built a full-stack web application from scratch using Next.js and shadcn/ui components
- Developed comprehensive backend with database polling and automated mail scheduling system
- Implemented time-lock security features and real-time data management capabilities

Coslynx Apr 2024 - Present
Fullstack Developer, Co-Founder Remote, India

- Enhanced and optimized the MVP maker platform using Next.js and shadcn/ui components
- Developed backend infrastructure with AI wrappers and advanced prompt engineering solutions
- Fixed critical site issues and implemented comprehensive platform improvements

ABOUT ME

Tech-enthusiast and self-taught programmer with 5 years of hands-on experience. I love turning complex problems into elegant solutions and I'm always curious about trying out new technologies. Driven, detail-oriented, and committed to constant growth. Coding isn't just what I do, it's who I am.

EDUCATION

B.Tech - Computer Science and Engineering Sept. 2025 - Present
G.H. Raisonni College of Engineering and Management Nagpur, India
